## **GROUP OVERVIEW**

#### 1999 - EPACK GROUP ESTABLISHMENT

EPACK Group was established at the turn of the century, by a family of entrepreneurs who brought together the best of resources in manpower and technology to setup an EPS (Expanded Polystyrene Packaging) manufacturing facility in Greater Noida, on the outskirts of Delhi. This initiative, which proved to be a huge success, was an outcome of years of effort, juggling work and family commitments. Ever since, our entrepreneurial streak kept growing and soon enough we diversified business into two more verticals -Consumer Durables and Pre-Engineered Buildings Manufacturing.

#### DIRECTORS

#### ACTIVE MEMBERS OF

and many more..

#### **BUSINESS VERTICALS**

As of today, EPACK Group has three major business verticals:

Pre-engineered/Prefabricated buildings & Infrastructure projects

Consumer Durables Manufacturing
- Air Conditioners, Induction
Cooktops, Water dispensers, Juicer
Mixer Grinders, etc.

EPS (Expanded Polystyrene) Packaging Manufacturing

#### WHERE DO WE STAND

As of today, EPACK Group is

- Number One processor of EPS packaging in the country.
- The Second largest ODM (Original Design Manufacturer) of Room Air Conditioner in the country.
- The Fastest growing Pre Engineered Buildings manufacturing Company" in India.

11 fully operational manufacturing plants spread across India. Out of this

- · 6 Manufacturing Plants for Consumer Durables products
- 2 Manufacturing Plants for processing of EPS packaging
- 3 Manufacturing Plants for Pre Engineered/Prefabricated Structures and Insulated Sandwich Panels

#### Our Philosophy

The philosophy of EPACK Group is to remain among the TOP 3 players in all its business segments.

#### **EPACK GROUP COMPANIES**

- 1. EPACK Durable Limited
- 2. EPACK Components Private Limited
- 3. EPACK Polymers Private Limited
- 4. EPACK Petrochem Solutions Private Limited

## ROOF & WALL ENVELOPE SOLUTIONS

#### Insulated Sandwich Panels

EPACK PREFAB's sandwich panels consists of two layers of metal or other rigid materials with a layer of insulation sandwiched between them.

These panels are made by bonding the three layers together under high pressure, creating a strong and durable structure that is effective at insulating a building against Heat, Cold and Fire.

EPACK PREFAB's sandwich panels are often used in the construction of walls, roofs, and floors in a variety of buildings, including Industrial, Commercial, and Infrastructure structures.

## WHAT MAKES **EPACK A GREAT** PARTNER

#### THE ARCHITECTS OF INNOVATION

DELIVERING QUALITY ON TIME

- Cutting-edge Design Software
- Well-qualified And Experienced Designers
- Dedicated Designers for Each Project:
- PAN India Presence of Designers
- **Dedicated Designers for Each Sales** Team

- Largest Project Team in India.
- Dedicated Site Engineer, Project Manager And Safety Engineer for Each Project.
- Stringent 180 Steps Quality Check Before Material Dispatch.
- Hourly Safety Monitoring of Each Project From Head Office.

#### **♦ KEEPING YOU INFORMED**

- State-of-the-art ERP And CRM System to Provide Regular Updates About Orders And Projects.
- Strong Digital System And Automated Reports to Kept You Informed at Every Step of The Project, From Design to Execution.
- Dedicated SCO's And CRO's Assigned to Oversee Each Project.

#### **♦ CONVENIENCE AND EFFICIENCY**

- All Solutions Available Under One Roof,
   From Design And Manufacturing to
   Installation And After-sales Support.
- Customized Solutions to Meet Your Specific Needs And Requirements.
- Expert Team Committed to Delivering High-quality Services that Meet Your Expectations.

## TESTIMONIALS

We're currently working with EPACK on two projects, and I'm really impressed with how open-minded and responsive they are. They listen to our questions, welcome new ideas, and act promptly. This is a great sign because, with each job, they're getting better and better. This not only benefits them but also the whole industry and everyone involved—the consultants and the owners.

CN SRINIVASAN
Managing Director, CR Narayan Roa & Associates

We are working with EPACK PREFAB, and we're really impressed. We visited their PEB manufacturing plants in both the north and south, and they have top-notch machinery. Personally, I'm interacting with Mr Sanjay Singhania and Jaideep Majumdar. They are very polite. EPACK PREFAB not only has a great PEB design team but also excellent manufacturing facilities.

I wish the EPACK team all the best for their hard work.

I'm a lover of steel construction, and EPACK's been doing wonderful work. They've been doing wonderful work throughout the country. It's a wonderful experience. Thank you so much.

t

I know EPACK PREFAB for the last three years, and I've seen them quickly become a big player in Pre Engineered Building (PEB) projects. Their growth in such a short time is quite impressive.

I've been working with EPACK PREFAB since 2013, and we've recently completed some big projects together. EPACK is growing fast, and I believe they're on track to achieve great success. Best of luck for their future!
